MIDAMERICAN ENERGY COMPANY

2022 ILLINOIS

ENERGY EFFICIENCY REBATE INFORMATION FOR YOUR HOME

Equipment must be purchased between January 1, 2022, and December 31, 2022, and installed and operating prior to submitting the final rebate application. Applications must be submitted within 90 days of dealer invoice or by December 31, 2022, whichever comes first. Rebates are issued on a first-come, first-served basis. Applications can be submitted via email to rebateapplications@midamerican.com. Trade Allies/contractors can submit applications online. Trade Allies/contractors must first enroll to have access. Contact a Trade Ally Ambassador at 877-290-4517 to enroll.

For prescriptive rebates (excluding smart thermostat rebates), the rebate payment cannot exceed 50% of the installed cost (reasonable labor and material/equipment - reasonableness to be determined by MidAmerican Energy Company). Installed cost includes contractor labor only and does not include internal labor. Smart thermostat rebates cannot exceed 50% of purchase price, excluding installation costs.

HOMECHECK® ONLINE

Save money, save energy and add comfort to your home with a free HomeCheck Online energy assessment. This tool provides an overview of your energy use and puts energy-saving ideas right at your fingertips. Visit **MidAmericanEnergy.com/homecheck-online** and log in to your MidAmerican My Account to learn more. Personalize your online energy assessment for the first time by updating your profile for a more customized experience. Illinois residential customers who complete the HomeCheck Online energy assessment for the first time will be eligible for a free energy efficiency kit. The kit contains energy-saving items that are easy to install. If you need assistance using the online tool, call 877-932-0616.

APPLIANCE RECYCLING

Equipment	Qualification(s)	Customer Rebate
Refrigerators/Freezers *Appliances must be in working and cooling condition*	10 cubic feet or larger, no commercial sizes	**$50/unit**

SUMMERSAVER℠

By participating in the SummerSaver program, you agree to allow MidAmerican to control your air conditioning unit on the hottest weekdays (no weekends or holidays) between 2 p.m. and 7 p.m. (or for shorter periods within those hours). The SummerSaver program runs from June to September. MidAmerican offers two device options for participation; a smart thermostat or a load control receiver (LCR). Customers that qualify for the smart thermostat option will receive a $30 end-of-season incentive. Customers who have an LCR installed will receive a $30 end-of-season incentive the first year and a $20 incentive in following years.

GLOSSARY

AFUE - Annual Fuel Utilization Efficiency: Ratio of annual heat output of the furnace or boiler compared to the total annual fossil fuel energy consumed by a furnace or boiler.

AHRI - Air conditioning, Heating and Refrigeration Institute: Provides standardized testing and certification of heating, ventilation and air conditioning (HVAC) equipment.

SEER - Seasonal Energy Efficiency Rating: Indicates the relative amount of energy needed to provide a specific cooling output.
